Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1941

Copyright, 1941, by Hill Directory Co., Inc.

In the following list the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

* * * between two intersecting streets designates there are no houses between them on that particular street.

The symbol ⓪ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The △ preceding names denotes householders and places of business having telephones.

(c) denotes colored.
